

Presio

Present PDFs from your browser — this deck included.

A five-minute tour · presio.xyz

Two windows, one deck

- You drive the controller
- A viewer window mirrors it
- Or share a 6-character code

controller · projector · the back row

Your PDF stays in the browser

The file is opened and rendered locally, never uploaded. Sync online only when you want people on other devices to follow along.

While you are talking

1. A laser pointer and a pen, live on the slide
2. Speaker notes beside the current and next slide
3. A timer, and j +number to jump anywhere

Video and GIFs, in sync

One deck, two windows

Every move is mirrored — slides, media, annotations.

an embedded GIF
